Location

Newark, Delaware.

Skills

Phone

(661) 332-2304

My name is Ravinderdeep Gill. I am currently a ^{PhD student} Master of Engineering in Particle Technology at University of Delaware. I am a very recent graduate from University of California, Santa Barbara in Chemical Engineering.

From my education at UCSB I gained experience in designing chemical processes and analyzing the techno-economic feasibility of ethylene production via bioethanol dehydration and ethane cracking.

PROJECTS

Senior Project 1
(Presentation +
PDF's)

Senior Project 2
(Presentation +
DDF's)

Research Exper
(UCSB)

Research Position
in Texas

Steam Power
Plant

- Have an image relating as an initial background
- Hover over it and display what I did and gained from this project + attach any reference files or reports
- will zoom in clicked
